Self-taught professional with a year of hands-on experience at Coalition Technologies, specializing in the independent development of React.js web and mobile applications. Demonstrates a keen ability to adapt and learn rapidly, with a portfolio of projects and contributions available on my GitHub profile. I am eager to apply my skills and collaborate on innovative projects within dynamic teams. (I know you're a busy person. There are probably a lot of applications like these that you have to check. If you don't like my resume, then before tossing it aside, let an engineer from your company visit my GitHub Profile. I believe they'll get a good insight about myself there.) Thank you :)

Professional Experience

Coalition Technologies

October 2021 - March 2023

Front-end Engineer

- **Revenue Generation:** Orchestrated consistent monthly revenue surpassing \$7K through strategic contributions to web development projects.
- **Front-end Development:** I was responsible for the front-end development of multiple websites spearheaded by my seniors, ensuring a seamless and visually appealing user experience.
- **Bug Resolution and Enhancement:** Resolved website bugs to elevate functionality and enhance overall appearance, contributing to improved user satisfaction.
- **Skill Enhancement:** Proactively acquired knowledge in Shopify and WordPress, expanding technical skill set during tenure.

Education

Bachelor of Commerce in Statistics, Economics, Accounting April 2015 - March 2019

Gujarat University, Ahmedabad

Fueled by a passion for problem-solving and innovation, I embarked on a journey to bridge the worlds of commerce and technology during my college years. I wanted to make an app that delivers groceries to people's doors. But, because of family's circumstances/issues, I couldn't commence. But Having been introduced to tech would transform me. In my final year, I embraced a transformative shift towards tech, blending analytical prowess with a newfound love for coding. This unique intersection of financial acumen and tech fluency positions me as an adaptable professional with a holistic approach to addressing challenges.
